

After a productive spring/early summer, In-Laws Construction is gearing up for the fall building season. Even with a number of jobs on the board, our quest for work is never-ending. Take a look at what we've been up to recently.

- Just completed a major 2 story, 800 sq. ft. addition/renovation job to a country cape in the local area.
- Just starting a major exterior makeover including replacement windows, new exterior doors, vinyl siding, a three season porch and adding columns to the front of the home.
- Currently in the design phase of a design/build major renovation to an old farm house being turned into a two family homestead.

*Why put off till tomorrow what you can do today!*

### Energy Saving Opportunity

How are your electric bills this summer? Is your pocketbook feeling the hit? Your hard earned money may be leaking out of the cracks! If you're living in an older home, your walls and ceilings may not be insulated to today's standards. Ask us about spray foam and the latest insulation alternatives. Maybe insulated siding and replacement windows are something you'd like to look into. With winter quickly approaching and the cost of fuel riding a never ending rollercoaster, now is the time to invest in the future? Make your life easier and save a little green at the same time. You won't regret it. Call us for a **free estimate**. We are the areas home improvement experts; let us take care of you!

**Now excepting major credit cards**

## In-Laws has New ???

We are constantly furthering our education about the latest products in the industry, so we can be of better service to you our customer.
